

ONE FACULTY PETITION

We, the undersigned members of the Sarah Lawrence College community, call on President Cristle Collins Judd and the Board of Trustees to commit to annual raises for all faculty teaching at the college including guest and affiliate faculty, effective immediately.

Currently, guest and affiliate faculty members are not entitled to annual salary increases until they have taught at the college for ten years. This is unacceptable.

Last year, the faculty voted down the proposed bylaw amendment that would have imposed further restrictions on guest and affiliate appointments. CCT has repeatedly recommended annual cost of living adjustments for all faculty.

Guest and affiliate faculty--ranging from those with full time to those with fractional appointments--play central roles in our curriculum. In every case, Sarah Lawrence faculty members are called upon to provide a degree of engagement with students that remains essential to our success, and distinguishes us year after year in the rankings. Guest and affiliate faculty deserve equal treatment at this most basic level of compensation.

We are one faculty.
